

## New Teaching Space

*(9th June 2020)*

We are so excited to say that we will be welcoming a large number of young people who are enrolling onto our courses in September 2020! However, this means that we are having to make a few adjustments to our learning and development centre to ensure we can accommodate for all and make we are adhering to social distancing guidelines.

Over half term, we have started to create space for our new portacabin classrooms and outdoor seating areas. We have also created a new rest space for all our visitors and learners.
